

QUALITY POLICY

- It is the objective of Acenta Steel Limited to be the first choice supplier of steel bars and flats in world markets.
- Our defined organisational goals are centred on producing high-class products which continually satisfy the requirements and expectations of our customers in all respects of quality, cost, performance, service, reliability and on-time delivery.
- The policy is deployed through our quality management system that has been established, documented and implemented to fully conform to ISO9001:2008 and customer specific, statutory and regulatory requirements as they apply to our products and services.
- We recognise the need to train and develop our employees so as to empower them to fulfil their duties to the highest possible standard within the scope of their responsibilities, through the adoption of best practices and the effective use of resources.
- We are committed to the continuous improvement of our systems, processes and procedures by the setting of quality objectives which will enhance the efficiency of our operations and the quality of our product, through the adoption of industry best practices.
- It is recognised that our success depends on our employees working as a team in a co-ordinated manner, within the guidelines of well defined systems, towards achieving known objectives, in a culture where it is accepted that quality is paramount and is the responsibility of everyone at Acenta Steel Limited.
